Education

Uka Tarsadia University [6th Semester]

Bachelor of Technology in Information Technology (Avg. CGPA: **8.16**)

2020 - 2024

Gujarat, India

Madhavbaug Vidhiyabhavan

12th Science with Mathematics, Chemistry and Physics (**73.70** Percentile)

2018 – 2020

Gujarat, India

Experience

Research Internship (Team: 2) | Blockchain, React JS, IPFS

- Made a website of Web and Blockchain-based Decentralized Research Publishing System (**B-DRPS**) for solving Bias Reviewing, Slow Reviewing Process, Impersonality Authors and Reviewers and Central Storage.
- Added user authentication via **Meta mask**, The Manuscript submission form in **IPFS** via **Web3.storage API**, Create Anonymity between Reviewers and Authors and more functionalities on **the Ethereum Blockchain**.
- I **contributed** in **React JS** and **IPFS** part. Created a website with an **attractive UI**. This will be published in the future as a **Research Work**.

Projects

The Pizza Store | React JS, Node JS, Tailwind CSS, MongoDB | [GitHub](#)

- Making two entity system, Customers and Admin with User Authentication. In this project, functionalities like users can order pizzas, generate pizza bills, Payment System and **Realtime Order Tracking System**.
- Used **STRIPE PAYMENT API** for online payment. Store user data with password decryption, order data, and menu data on the **MongoDB database**.
- Make **Realtime Order Tracking System** like Swiggy, Zomato with attractive UI.

Netflix Clone | React JS, CSS | [GitHub](#)

- This project is a Simple UI Clone of Netflix which is made by **React JS** and **CSS**.
- Used **TMDB API** to display the Poster of the Movies.

Greener App (Team: 6) | Flutter, Dart, Firebase

- This project connects citizens and municipal corporations to improve greenery in urban areas by celebrating functions and important days by planting a tree.
- App has **Firebase** as backend and has features like multi-level authentication, Selfie upload feature, tree slots availability, and selection, Donation of Lands, and many more features.
- Along with 5 teammates we present this app to the **SSIP Gujarat hackathon** and were **selected in the state-level round**.

Snake Game | JavaScript, CSS | [GitHub](#)

- This project is Snake Game which is made with **JavaScript** and **CSS**.
- The Snake Game include controller like Left, Right, Up and Down by **Keyboard Features**.
- This project is made while learning **JavaScript**.

Technical Skills

- **Languages:** C / C++, JavaScript, HTML/CSS, Python.
- **Frameworks/Tools:** Git/GitHub, React JS, Node JS, Express JS, MongoDB, C++ STL.
- **Dev-Domains:** Full Stack Development, Blockchain Development, Flutter Development.
- Familiar with Java, SQL, Dart, Solidity, Truffle and Cryptography.

Achievements

- Solved **100+ DSA Problems** across various Coding Platforms.
- Participants more than **3 Hackathons** and **Selected for Final Round of SSIP-Gujarat Hackathon**.
